<tbody>
<tr>
<td>goal 1: Provide campus-wide solutions to facilitate collaboration, innovation, and discovery in support of learning, teaching and research.</td>
<td>goal 1: With the world: Increase our reach to prospective students by transforming the University’s web presence into a best in class engagement and personalized platform.</td>
<td>goal 1: Contribute to outstanding leadership and management by enabling and supporting the tools required for evidence-based decision-making.</td>
<td>goal 1: Implement best and finest practices of service, solutions and support delivery.</td>
</tr>
<tr>
<td>goal 2: Partner to support cutting-edge research through an integrated research infrastructure.</td>
<td>goal 2: With partners: Strengthen and expand partnerships with our faculties, services, public and private sectors.</td>
<td>goal 2: Support high impact research and partnership initiatives.</td>
<td>goal 2: Strengthen IT security and data privacy policies, standards, risk management processes and technical capabilities to secure university assets, data and operations.</td>
</tr>
<tr>
<td>goal 3: Modernize and streamline our institutional systems and processes to improve user experience and administrative effectiveness.</td>
<td>goal 3: With technology: Ensure IT investments are strategically aligned through rigorous planning and governance.</td>
<td>goal 3: Leverage previous investments in new and meaningful ways.</td>
<td>goal 3: Lower complexities and costs by transitioning operations to automated processes driven by intelligent cloud computing resources.</td>
</tr>
<tr>
<td>goal 4: Harmonize, simplify, consolidate, and scale our infrastructure ecosystem.</td>
